E Ora qualche progetto degli alunni...

SUSTAINABLE NAPLES

Project for sustainable streets of Naples

A project to get better

We are doing this project to get better the streets of Naples and make our voice heard in the government.

We will show you our idea for the new version of Naples.

Our ideas

1. Use more bikes than car and scooter
2.The buses should be cleaner
3.Let be better Roads
4.More Cyclable areas
5.Let clean roads
6.Cheaper ECAR
7.Politer people

VARIOUS TYPES OF POLLUTIONS

IN MY CITY THERE ARE A LOT OF PROBLEMS ABOUT POLLUTIONS.
THERE ARE: SOIL POLLUTIONS,AIR POLLUTIONS AND WATER POLLUTION.
SOIL POLLUTION:THE SOIL POLLUTION IS THE POLLUTION OF THE GROUND.THE SOIL POLLUTION CAN BE CAUSED BY THESE THINGS,MOST PLASTIC BOTTLES,CARDS OF CANDY AND TIN CANS.0NE OF THE MANY SOLUTIONS TO AVOID THIS POLLUTION WOULD BE THE RECYCLING.
AIR POLLUTIONS: THE MAIN CAUSES ARE CARS,MOTORBIKES AND SCOOTERS.ONE OF THE MANY SOLUTIONS ARE ELECTRIC MACHINES (ECAR).
WATER POLLUTION:THE THINGS CAN CAUSE THIS POLLUTION ARE THE INDUSTRIES WASTE INDUSTRIES THROW THEIR WASTE INTO THE WATER AND WASTE WHICH GO INTO THEY OCEANS,SEAS,RIVERS,LAKES.A SOLUTION TO THIS POLLUTION WOULD BE REDUCING INDUSTRIAL WASTES OR DON’T PRODUCE MORE PLASTIC BOTTLE.

What can we improve for Naples?

Increasing investment in road maintenance and repair could be an efficient solution: The government should allocate more funds to fix potholes, cracks, and other damages on the roads.

1. Improving public transport : Encouraging the use of public transport could help to reduce traffic congestion and wear and tear on the roads.
2. Promote carpooling: Carpooling can reduce the number of vehicles on the road, decreasing traffic congestion and lowering the need for road maintenance.
3. Encourage biking and walking: Promoting biking and walking can also reduce the number of cars on the road, making it easier to maintain the roads.
4. Introduce tolls or congestion charges: Introducing tolls or congestion charges for drivers entering the city center during peak hours can encourage people to use public transportation or carpool.
5. Increase the use of technology: Implementing smart traffic management systems can help reduce congestion and improve the overall flow of traffic.
6. Enforce traffic laws

5 solutions to revive Naples

1. Increase investment in infrastructure: Investing in infrastructure such as roads, public transportation, and public spaces can help improve the city's overall appearance and functionality, making it more attractive to tourists and businesses alike.
2. Address crime and corruption: Naples has long struggled with issues of crime and corruption. Addressing these issues through improved law enforcement and increased transparency in government can help create a safer and more stable environment for residents and visitors.
3. Promote cultural tourism: Naples is home to a wealth of cultural attractions, including historic sites, museums, and art galleries. By promoting these attractions and encouraging cultural tourism, the city can attract more visitors and generate economic growth.
4. Support small businesses: Small businesses are the backbone of any community, and Naples is no exception. By supporting local entrepreneurs and creating a more favorable business environment, the city can help spur economic growth and create new jobs.
5. Improve education and job training: Education and job training programs can help prepare residents for the workforce and attract new businesses to the area. By investing in these programs, Naples can create a more skilled and competitive workforce, which can help drive economic growth and improve quality of life for residents.
